Concero Workspaces

A Smarter IT Solution for the Modern Business.
More Mobile - More Secure - More Affordable.

The culture of work is changing. Mobility and BYOD are the new norm that employees expect. Workers want access to business applications and data on-the-go and from any device, including their own personal devices. At the same time, organizations are increasingly focused on reducing IT budgets, protecting privacy and intellectual property, and complying with regulatory requirements.

Concero can help your business address these needs!

Concero Workspaces

Business-ready desktops and applications delivered from the cloud.

Key Benefits

- Grow your business, not your IT infrastructure
- Predictable and simple economics
- Any device, anywhere mobile access
- Secure and compliant by design
- Built-in business continuity

Concero Workspaces empower organizations of all sizes with secure, anytime, any device access to corporate desktops, applications, data, and files. Concero Workspaces are a business-ready cloud solution delivered as-a-service with predictable, pay-as-you-go monthly billing. It is a proven and affordable approach that meets the demands of modern business.

Concero Workspaces are hosted in top-tier Canadian data centres and delivered to end-user devices over the Internet. Using industry best technology for the enterprise, Concero hosted desktops and applications are virtually indistinguishable from traditional pc-powered workspaces even over higher latency networks.

Centrally secured and delivered as a cloud service, Concero Workspaces reduce the risk of data loss or intrusion. User access is strongly encrypted and secured via enterprise-grade identity and permissions management systems. Intellectual property and sensitive information stays within the data centre, not on more vulnerable end-user devices.

Concero Workspaces deliver significant cost savings over legacy, PC-based models of workspace delivery. For a low, monthly fee almost all overhead associated with desktop IT is eliminated. Out-of-the-box, organizations get a fully managed, enterprise-grade IT solution that meets the demands of the modern workplace.

Benefits of Concero Workspaces

Grow your Business, Not your IT infrastructure

Moving to Concero Workspaces means your organization no longer has to manage desktops and applications, unlocking time and budget so your business can focus on what matters most. Move your IT team onto more strategic initiatives instead of ongoing workstation licensing, updates, patches and maintenance.

Predictable and Simple IT Economics

Concero Workspaces provide your organization with enterprise-class technologies on an affordable and predictable, per user, pay-as-you-go model that allows your business to scale cost efficiently. Expensive capital expenditures are eliminated and its easier and faster to adapt to business changes.

Any Device, Anywhere Mobile Access

Give users the choice and flexibility to work from any device and any location. Users have secure, single-click access to their desktop(s) and all of their business applications, data, and files. At the same time, your organization maintains control with configuration, security, provisioning and support capabilities for mobile devices.

Secure and Compliant by Design

Concero Workspaces are centrally secured and delivered from a top-tier Canadian data centres, reducing the risk of data loss or intrusion. User access is secure and intellectual property and sensitive private information stays safe behind multiple layers of physical and network security, including support for AD federation and multi-factor authentication.

Seamless Office 365 Integration

All Concero Workspaces integrate seamlessly with Microsoft Office 365. Pick any business-class Office 365 plan and Concero will include it in your monthly subscription. Concero also improves security and simplifies user management delivering single sign on (SSO) for your Concero Workspaces and Office 365.

PC-like Performance

- **Excellent end-user experience**
  Concero Workspaces are delivered using Citrix® HDX technology to ensure an excellent end-user experience even under poor network conditions. As a result, the user experience is practically indistinguishable from a local, PC-driven user experience.

- **Smooth voice, video and multimedia performance**
  Using the latest compression technologies, Concero Workspaces delivers bandwidth-efficient audio and video with smooth, PC-like quality.

- **Support for USB and other local devices**
  Concero Workspaces provides simple plug-and-play connectivity for a broad range of USB devices such as webcams, music players, audio recorders, cameras and GPS radios on mobile devices.

Windows Apps Made Mobile

Automatic adjustment for Windows applications running on mobile devices – Concero Workspaces deliver a full touch experience while leveraging device features such as multi-touch gestures, native menu controls, camera and GPS device functions.

Self-Service IT

Concero Workspaces come with a self-service web portal for performing day-to-day tasks like adding or removing users. You can also have a complete view into your Workspaces so you can track usage, view available services, monitor system health and receive notifications along with Concero's service desk.

Built-in Business Continuity

Because your desktops, applications, data, and files reside off-site, Concero Workspaces give your business a built-in business continuity and a disaster-recovery plan. In the event of a local business disruption, your employees can continue to work from any location and from any device with an Internet connection.

Concero Workspaces Benefit the Entire Organization

Concero Workspaces benefit the entire organization – business leaders, IT, and employees. Business leaders can better drive innovation, focus on growth and make their teams more responsive. They can lower overall IT costs and stop capital expenditures on IT infrastructure. IT can more easily meet business continuity and information security requirements while focusing on bigger, more strategic IT projects instead of routine desktop maintenance and troubleshooting. Finally, employees can be more mobile and productive by having access to their office desktops and applications at home, on the road, on whatever device they have.

Powered by Best in Class Technology from Citrix

Concero Workspaces are built using best-in-class, enterprise grade solutions from Citrix, the leader in mobile workspaces. Citrix technology enables new ways to work better and allows Concero to implement solutions used by the world's largest enterprises in ways that effective and efficient for smaller businesses.
